The SPS-24/1,2 is part of the DIN rail power supply series, which is designed for use in compact cabinets for home automations and the food and beverage industry. DIN rail power supplies offer double isolated input. This means that no Earth connection is required thus resulting in low leakage current. This product provides a universal input voltage range of 90 ÷ 264V AC, and a wide temperature range of -25°C to 71°C. The power supplies are certified to safety standard according to IEC/EN/UL 60950-1, IEC/EN/UL 62368-1 and UL 508. NEC Class 2 and Limited Power Source (LPS) approvals are available for this product.
